PLANTING SEASONS

SPRING begins as soon as the frost is out of the ground and continues until early June. Evergreens and Herbaceous Perennials can be safely transplanted until the latter part of June.

FALL—Evergreens can be safely transplanted during August and September. Herbaceous Perennials do best when moved during September and before the middle of October. Deciduous Trees and Shrubs can be safely moved after we have had one or two frosts and continued until the ground is frozen.

GROWING DEPENDABLE NURSERY STOCK IS OUR JOB. Our plants are given plenty of room to develop in the nursery row and are properly pruned as well as frequently transplanted. Therefore, our customers are assured of getting plants with good top growth as well as excellent root system. This careful attention gives us confidence that our product is equal to the best.

OUR NEW SHIPPING SHED AND BRANCH OFFICE located on Centre Avenue near the Passenger Station at Abington, enables us to give you better and more efficient service. There will always be someone in attendance every working day during the planting seasons.

LANDSCAPE SERVICE

If we can be of any assistance to you in making selection of stock for a particular location, we are at your service. For a reasonable recompense we will select the proper Nursery Stock for your particular requirements and plant the same.

If the estate is large consult a Landscape Architect. If you don't know of one write us and we will be glad to put you in touch with one. Feel free to call upon us for advice. For this service we make no charge.

Nearly all Nursery Stock presents a much better appearance if pruned and cared for at the proper time. We, therefore, offer you the services of our men who are trained in this important and particular profession.

All goods are shipped F. O. B. Abington, Mass. We will make deliveries within a reasonable distance of our Nurseries and charge according to mileage and size of truck used. We have added a more complete truck equipment in order that we may give you better service.
